### How to gain Accreditation in the future

Quantum result should not include any "A" negative result in the answers.

### **AIMS of the committee:**

- To implement the introduction of an accreditation system in Europe.
- To give assistance and help to all nuclear medicine departments in Europe which apply for an accreditation.
- To have a Quality Manual with respect to the ISO 9001:2008 standard as a basis to create a specific Quality Management for an individual nuclear medicine facility.
- To provide tools for the Quality Manual in electronic form.
- To develop criteria for an accreditation granted by the UEMS/EBNM.
- To develop and maintain a database of all accredited nuclear medicine departments in Europe.
- To cooperate with other Committees and outside Organisations in this field.

### **Why is UEMS Accreditation necessary?**

Accreditation is the basis for the Implementation of the Council Directive 97/43 EURATOM via the ISO standards or the IAEA process. With the accreditation of your Nuclear Medicine Department you can stay in touch with the CANMD which is also very active in the application of Clinical Audit, as required by the Council Directive 97/43 EURATOM.

Charges: 500 € at application, 500 € after acceptaton.

**We'll provide you with more detailed information at our lunch meeting during the upcoming EANM-congress in Vienna, October 2010.**
